

Description

A small but powerful lighting system designed to create even illumination and colorful lighting effects throughout your pool and spa.

Fitting into standard pool fittings as shallow as 4" below water level makes them ideal for *swimouts*, *beach entries*, *sun shelves* and other shallow water applications.

The Savi Melody can be wired to any 12 VAC transformer, wire transformer to any controller, wall switch, etc.

No separate controller is needed.

No niche is required

Multiple units can be used for illumination, wired directly to a 12 VDC low voltage circuit. The transformer size will determine the number of melodies. Color modes are changed with an off/on toggle power switch.

Exciting "Shows"

- Smooth Color Transition
- Blue/Green Fade
- Fast Color Changing
- Medium Changing

Vibrant Colors

- White
- Light Blue
- Green
- Pink
- Dark Blue

Specifications:
